MidiClip MDC1617

clip in magazines for fixing tubes on wire mesh
 Ø 3 mm (1/8")

- rapid mounting of the clip with setting tool
- due to the special clip shape overturning on the wire is avoided
- variable installation and wire distances are possible as clip can be mounted on cross wire as well as on crossing points
- reliable hold on wire mesh
- holding force of tube bends approx. 30 % higher compared to other systems

patent pending!
